

Kategize POTL Game Rules

2 to 4 Players, Ages 8+

Goal: Be the first to collect **7 books** by completing stacks of 3 cards.

Setup

1. Shuffle the deck and deal **5 cards** to each player.
2. Place the rest of the deck face-down in 1 to 3 piles on the board.
3. The player to the left of the dealer goes first.

How to Play

1. Playing the Cards:

- o The board has spaces for numbers **1 to 10**.
- o Place a card on an **empty space** matching its number or add a card to a stack.
- o Each stack can only have **3 cards**: one **red**, one **yellow**, and one **blue**.

2. Drawing a Card:

At the end of your turn, draw a card from any of the deck(s).

3. Stack Rules:

- o **Second Card:** May be a Prism card; OR the card must be a different color than the first card AND:
 - The same value as the first card, OR
 - One number higher or lower than the first card.
 - o **Third Card (Wins the Book):**
 - If the second card is the same value as the first, the third card must be the same value.
 - If the second card is higher, the third must be one number higher than the second card.
- (continued)

- o **Third Card (Wins the Book):** continued
 - If the second card is lower, the third must be one number lower than the second card.
 - The third card must be a color **not** already in the stack.

4. **Winning a Book:**

- o When you play the proper third card in a stack, you win the book!
- o Take the 3-card stack and place this book in your collection. You need **7 books** to win.

5. **Refilling Your Hand:**

- o If you have fewer than 5 cards after your turn, draw from the deck until you have 5.

Special Cards

• **Prism Card:**

- o Can only be played as the **second card** in a stack.
- o The player who plays the third card to win the book, assigns the prism card's value and color.
- o If you win a book containing a prism card, you must skip your next **two turns**. (except when winning the book with the Bookmaster card).

• **Bookmaster Card:**

- o Can only be played as the **third card** in a stack.
- o It can complete and win any 2-card stack.
- o If you play a Bookmaster card to win a book containing a prism card, you must skip your next **turn**.

- **Thief Card:**

- o Allows you to steal a book from another player of your choice.
- o After playing this card, draw a new card to keep 5 in your hand.

- **Switcher Card:**

- o Allows you to trade **1 to 5 cards** with another player.
- o You select which cards to give (without revealing) and blindly select the same number of cards from their hand.

Note: Playing a special card completes your turn.

Winning the Game

The first player to collect **7 books** wins! Enjoy your game!

Game Tiebreaker

1. If all cards from the deck are drawn, the game continues using only the cards in players' hands in an attempt to claim 7 books and win the game.
2. Players take turns as usual. If a player cannot play a card, they must pass their turn.
3. If the game continues until no player can play a card, the winner is the player who has won the most books.
4. At this point, if there's a tie in the number of books won, a new game is played between those with the tie.
5. In the new game, the first player to win a book is declared the winner.
